Teachers like you have said...

This resource is so easy to edit. It made prepping for the school year a breeze, and it also looked beautiful." –Demi B.

These templates were SO helpful! The fonts are easy to download and the templates are easy to edit. I rarely find back to school products that don't require a ton of changes for high school teachers so I LOVED these!
– Smiles N Science

Our school uses meet the teacher documents to let parents know what class their kid is in. These were just what I needed to give mine a refresh! –Kathryn F.

I was able to make connections with my students and families right away with this resource! I received many positive comments about my letter during our Meet and Greet session. -Se'sha J.

I used this in my "Meet the Teacher" materials this year & parents told me they found it very helpful. I also printed out a copy for each student to keep in their binder. I teach 6th grade & this was the first year many of them had received a syllabus. This is a great resource to have! –Bridget B.

I like all the different formats this resource comes with. It will fit with any teacher's preference.
–Janet G.
